

Praj commissions new plant at Kandla SEZ: Biofuels technology company Praj Industries has inaugurated its manufacturing unit at Kandla Special Economic Zone (SEZ), set up with an investment of Rs 30 crore, on Thursday. Spread over 75,000 sq ft, the facility has a capacity of 3500 tonne of equipment. It would double the company's manufacturing capacity as well as reduce its transportation costs, due to the proximity to the port. The new facility was planned to meet the requirements of the large capacity projects of the company's in the US and Europe.
