

Star SME award for Praj

Praj Industries, a leader in the biofuels technology, has been conferred the Star SME Award 2007 by The Business Standard. The award was conferred by BJP leader LK Advani in a ceremony held in Mumbai. *Business Standard* chose top 1,000 companies from India who have not only scaled up their businesses in a relatively short time but have done so in the era of stiff competition from players who are far bigger and far established. "The award represents our performance for the last year. It is a reward deserved by all the Prajites," said Praj chairman Pramod Chaudhari.
