*“Over the last four quarters significant momentum is built in the bio energy space with a very positive and conducive policy program announced by the government of India. The first quarter of the year witnessed a differentiated level of activity in the market leading to stretched cycle times on decision making and tight liquidity. Our Q1 results are influenced by the prevailing environment and are indicative of positive potential of our business. We believe that unfolding future will witness further buildup of momentum. All our businesses are well positioned to capitalize on opportunities likely to emerge out of this momentum build up in short and medium term. ” said Mr. Shishir Joshipura, CEO & MD, Praj Industries.*

*“As we look ahead, we remain confident that our technological prowess, robust execution abilities and strong global customer relationships will help us leverage opportunities in the domestic and international markets”, Mr. Joshipura added.*
